Anderson C. Hill II  
HZ Construction, Inc.  
1314 North Pine Hills Road  
Orlando, FL 32808

Dear Mr. Hill:

Welcome to the Construction Management Development Program-Bond Guarantee Program (CMDP-BGP), your application has been approved. This is a special program funded by the Florida Department of Transportation and administered by the Small Business Development Center at Florida A&M University. It is based in Tallahassee, Florida but provides services and classroom instruction at locations throughout the state. We offer technical assistance, on-the-job training and bond guarantees to Small and Disadvantaged Business Enterprises (DBEs) needing support to successfully win and perform on Florida Department of Transportation (FDOT) contracts.

A Needs Assessment of your company, its officers and employees has been evaluated by an impartial committee to determine your company's proficiency and capability in performing on highway construction and transportation support related projects. Based on your responses to the Needs Assessment form, the committee determined that your company is **exempt** from all classroom training. Your company will receive a "Certificate of Proficiency" acknowledging that you have satisfied the twenty-one (21) proficiency standards as laid out by FDOT to perform successfully on FDOT contracts.

Sincerely,

Robert Nixon,  
Executive Director
